FPC-102

Fuel Injector Cleaner

Description

FPC-102 is a formulated Generation IV intake valve and port fuel injector supplement for gasoline fuel engines. The product is designed for total fuel system related deposit control and will meet or exceed the best standards in the industry.

FPC-102 is formulated for use at a rate of 12 ounces per 20 gallons of gasoline. The product contains a proprietary mixture of detergent / dispersant, corrosion inhibitor and antioxidant. It also contains high flash solvent to maintain compatibility with PVC packaging. The product is not recommended for use in HDPE containers.

Regular use of **FPC-102** will result in the following:

- One tank carburetor clean -up
- One tank IV clean-up
- One tank PFI clean-up
- Valve stem gum removal
- Corrosion protection

With regular use, this product will extend the durability of fuel system components as well as offer longer fuel filter life, especially in late model vehicles.

Typical Physical Characteristics

| | | |
|------------------------------|------------|------|
| Flash Point, °F | ASTM D56 | 140 |
| Specific Gravity at 15.6 °C | ASTM D1122 | 0.82 |
| Kinematic Viscosity at 40 °C | ASTM D445 | 2.0 |
| Lbs./gal. | | 6.83 |
