FPC-104

Fuel System Cleaner

Description

FPC-104 is an advanced gasoline detergent that offers premium, Generation V fuel performance. It is designed to be used as a complete fuel system cleaner at a 12 oz. treatment rate to 20 gallons of gasoline. **FPC-104** delivers the following performance:

- Maintains carburetor cleanliness
- Maintains intake and port valve cleanliness
- Helps maintain fuel injector cleanliness
- Helps maintain intake manifold cleanliness
- Maintains combustion chamber cleanliness
- Cleans up dirty carburetors, intake and port valves, fuel injectors, manifolds, and combustion chambers
- Removes intake and exhaust valve stem gum
- Lubricates intake valves

This performance can result in the following benefits:

- Restores engine power
- Improved acceleration and smoother idling
- Helps reduce engine emissions
- Reduces octane requirements
- Helps to eliminated engine knocks and pings

FPC-104 contains no aromatic solvents and is compatible with standard packaging plastics such as PVC. HDPE packaging is not recommended for this product.

Typical Physical Characteristics

Flash Point, °F (min.)	ASTM D56	140
Specific Gravity at 15.6 °C	ASTM D1122	0.85

Kinematic Viscosity at 40 °C
Lbs./gal.

ASTM D445

6.83 2.0
