## **FPC-205**

### **Fuel Lubricity Additive for Marine Fuels**

---

#### **Description**

**FPC-205** is a friction modifier, fuel economy additive for use marine gasoline applications. In addition to enhancing fuel economy, FPC-205 has also been formulated to promote rapid water separation from treated gasoline. It shows excellent handling characteristics down to 0° C. The product is used at a treatment of 1 oz. in gallon of gasoline.

#### **FPC-205 Performance Summary:**

- Improves boat fuel economy.
- Works in old and new boats.
- Protects engines against wear and corrosion
- Works in virtually all gasoline engine configurations.

---

#### **Typical Physical Characteristics**

Flash Point, °F	ASTM D93	>140
Specific Gravity at 15.6 °C	ASTM D4052	0.87
Kinematic Viscosity at 40 °C, cSt	ASTM D445	>10
Pour Point	ASTM D97	0
Appearance	Visual	Clear liquid

---
